Equipment Rental

Every diver must carry their *Total Diving System*, this includes:
Buoyancy compensator vest, regulator with second stage, octopus and pressure gauge, snorkel system (minimum mask and fins), computer, buoy, cutting instrument and whistle.

High quality equipment

We are an official MARES center and we have high-end equipment. Jackets with integrated weight for greater comfort. Compensated membrane regulators with DIN system for more comfortable and safe breathing at any depth and environmental circumstance. All our suits and vests are completely new since we have all our rental material for sale with a good price, in this way, we constantly renew the material. You can also test all MARES regulators.

Equipment Rental

- Regulator one dive **8€** and **12€** all day.
- BCD **8€** one dive and **12€** all day.
- Diving computer **8€** all day.
- Torch **10€** all day.
- Buoy **5€** all day.
- Extra Nitrox **10€**.
- Extra night dive **10€**.
- Extra long distance **10€**.
- Scooter Suex VR **25€**.
- Rebreather Horizon Mares **25€**.

All the equipment for specialty courses **15€** al day

Security through maintenance

Our diving equipment is constantly checked. We are a MARES LAB certified center, all our regulators have their periodic maintenance up to date, including the change of all moving components.

All our tanks are up to date with the annual visual inspection and the 5-year periodic inspection.

Our compressor to fill the bottles has a pure air certificate [https:// www.bauerpureair.com/dive-centers/?lang=en](https://www.bauerpureair.com/dive-centers/?lang=en)

, so that its intelligent system does not fill the tanks if the air is not in perfect condition.

With well-maintained quality equipment, you dive better.
